

## **ENVIRONMENTAL POLICY**

Paterson Arran Ltd recognises the need to manage its activities in such a way as to reduce our environmental impact to a practical minimum.

The Company is committed to the continual improvement of its environmental performance across both sites, including the prevention of pollution and climate change mitigation and adaptation. We intend to achieve this by setting comprehensive and challenging environmental objectives and targets each year.

In particular Paterson Arran Ltd will:

- Conserve and protect the environment by operating to the highest possible standards of environmental management, thereby minimising the risk of water, land and air pollution
- Ensure that all employees receive environmental awareness training so that they understand the impact of their activities on the environment
- Comply with all current legislation and other requirements, and adopt a proactive stance in anticipating future regulations
- Minimise waste throughout and aim for waste free processes wherever possible, through better utilisation of raw materials, energy and water, increased use of recyclable or reusable materials and the development of a strategy for minimising waste at source
- Ensure our activities on Arran are carried out with due care and consideration to Island wildlife and waters.
- Develop effective means for responding to accidents or emergencies, thereby avoiding or minimising environmental damage
- Use sustainably sourced raw materials, including palm oil, where possible.
- Deal only with reputable, responsible and registered waste carriers
- Ensure that this policy is understood and implemented at all levels within the Company.
- Ensure that Environmental Management Systems are regularly monitored and reviewed
